Coordinator
School Name: The Blind Relief Association,
Delhi

Context

**Lockdown
in March
2020**

**Students
had to go
back home**

**Students deprived of
tactile(braille) study
material, and direct
teaching which are
essential for VI
students.**

Solution

Microsoft interactive tools came to our rescue: Microsoft Teams and One Drive

Made effective use of the following accessibility functions available :

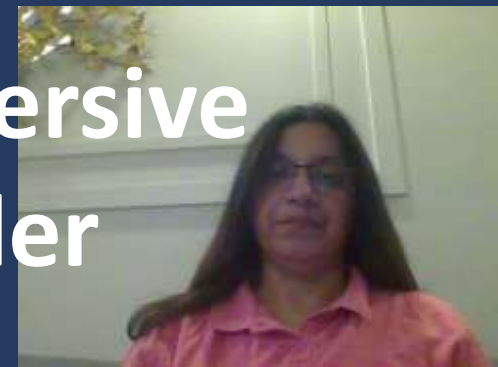

Dictate
Feature

Audio
Storage

Immersive
Reader

Impact

- Increased Participation
- Active Collaboration
- User Accessibility
- Work systematically recorded

Results

We were greatly apprehensive of how we'll face the challenge of effectively conducting online teaching during the pandemic, but Microsoft Teams came to our rescue and provided us with a platform to smoothly continue to impart education and skills in virtual mode.

Thanks to the Microsoft tools we have been able to considerably bridge the gap between direct teaching mode and online teaching.

The Blind Relief Association, Delhi is grateful to Microsoft through Juana Technologies for their valuable support.
